

CHILD SURVIVORS OF HISTORICAL TRAUMAS

Eva Fogelman, PhD

I am here because of the genocide of Native Americans. In one of the recent documentaries authenticating Hitler's writings I learned that Hitler conceived of the idea to annihilate the Jews from his awareness of the genocide of the Native Americans. He realized that people can kill an entire nation and take their land.

And so he set out to kill any person who had at least one quarter Jewish blood in him or her – man, woman and child. Hitler also set out to do the same with Gypsies, Jehovah's Witnesses, gays, and handicapped. He was also not too compassionate to Blacks. . .
