“We had to ask ourselves why we shouldn’t apply to our human problems this same readiness to change our point of view. We were having **trouble with personal relationships**, we couldn’t **control our emotions**, we were a prey to **misery** and **depression**, we couldn’t **make a living**, we had a **feeling of uselessness**, we were **full of fear**, we were **unhappy**, we couldn’t seem to be of real **help to other people**—was not a basic solution of these bedevilements more important than whether we should see newsreels of lunar flight? Of course it was.” AA Big Book, pg. 52.
